

Where am I in Lat/Lon?

Provided you have mobile phone reception, the NSW SES EMERGENCY+ smart phone app (both IOS and Android) may be of use. It provides 000 emergency, SES and police attendance phone numbers (as well as others) AND YOUR LOCATION IN LAT/LON:

Of course, your best preparation is to have your GPSr set up to display your location in MGRS (for walking) AND Lat/lon (for rescue) and to carry a PLB.
