*Canyoning trip in the Blue Mountains led by Bruce*

**FEBRUARY 2025 LEADERS LETTER**

Yuma CBC Activity Leader

### **January activities and leaders**

CBC offered plenty of choice for members and guests during January. There were some excellent multi-day trips (including canyoning and week-long walking/social), CBC leaders facilitating Wednesday Walks, tough day walks, and many shorter activities to 'beat the heat'. The annual Snake Awareness event was full, and we may see some more hammock campers!

Thanks heaps to all the active leaders who contributed.

39 completed activities in January, led by Jenny A, Bruce B, Monika B, Garry B, Chris D, Gerald D, Allan D, David D, Janet D, Henry G, Linda G, Dagmara K, Julie M, Di McD, Dick M, Sal Ol, Phillip S, John E.

## Booking Info

I notice some “tell me your real name” requests from a few leaders in private and Message Board Notes. The participant’s Full Name is available in the Booking Info tab.

It is true that not all full names are displayed in an activity’s Participants list view. This is determined by the participant’s Privacy settings. However, having the Full Name available to the leader in the Booking Info tab balances the individual’s need for privacy and security with the leader’s need for information concerning the activity’s participants.

## Tidbinbilla Nature Reserve Skyline Trail

Construction of the new track from Fishing Gap to the top of the Camelback fire trail has begun. It will include track to the Pimple, and entry/exit tracks to/from Snowy Corner and south-east of Tidbinbilla Peak. It will be opened in October 2025 when the Reserve will have longer daylight savings opening hours.

## New Satellite/SOS Offering?

Check this out. Could the 2-Ounce [HMD OffGrid](#) Replace Your Garmin inReach?
