Don't Trust Others' Ropes

A timely reminder from Steve H who recently climbed The Castle, where he found one section of fixed ropes was poorly rigged and in bad condition. "Don't blindly trust fixed handlines".

Navigation Training in 2025

We are planning to run the Club's Navigation Training again this year, albeit with a few changes. We are looking for the loan of Garmin MAP66 and MAP67 GPSs for 2 days in early November. If you think you can help, please contact me at jevansact@gmail.com. Thank you to those who have already offered their devices.

Skyline Track at Tidbinbilla Nature Reserve

CBC was recently invited by Iconic Trails, the TNR Skyline Track builder, to participate in ground and drone filming for advertisement of the track. The track will be officially opened in early October. It has been made in a most sympathetic and natural way, with as little disturbance to the environment as possible.

Please **contact me** if I can assist you in any way.
